PROFESSIONAL SUMMARY

Creative and detail-oriented web developer and graphic designer with a strong foundation in web design, front-end development, and artistic media. Known for a unique visual perception, consistent execution, and unwavering grit in delivering high-quality digital experiences.

I thrive on aligning design and development with evolving industry trends to ensure relevance and impact. My key strengths include:

- A sharp eye for detail, refined through experience working with artistic mediums and handling highly sensitive information.
- Strong organizational and prioritization skills, driven by a commitment to optimizing productivity and efficiency in collaborative and fast-paced environments.

Always curious, always improving — I bring both innovation and discipline to every project I contribute to.

PROFESSIONAL EXPERIENCE

Media & Communications Officer, *Destiny Shapers Foundation*

09/2024 – present
Nairobi, Kenya

- Crafting and executing media strategies to grow DSF's visibility and community impact.
- Creating and publishing multimedia content across social platforms, aligning with our mission and target audience.
- Managing internal and external communications, including newsletters, press releases, and partner updates.
- Capturing and curating stories through photos, videos, and written narratives to document and share our impact.
- Collaborating with program leads to support outreach initiatives with clear, strategic messaging.
- Tracking digital engagement metrics and adjusting content strategies to boost reach and effectiveness.
- Maintaining visual and brand consistency across all digital and print materials.

Shop Assistant, *Naivas LTD*

06/2023 – 09/2024
Mombasa, Kenya

- Specialized in the Electronics Section, assisting customers with product information, comparisons, and technical support to help them make informed purchasing decisions.
- Demonstrated and explained features of electronic devices such as TVs, audio systems, mobile phones, and home appliances to increase customer confidence and drive sales.
- Ensured proper stock display, accurate pricing, and product availability, maintaining a clean and well-organized electronics section.
- Managed POS transactions including cash, card, and mobile money payments, handling each with accuracy and professionalism.
- Provided basic troubleshooting for electronic items and guided customers on usage, warranty, and after-sales support processes.

- Collaborated with the inventory team to track stock levels, report discrepancies, and assist with incoming deliveries specific to electronics.
- Actively promoted special deals and upselling opportunities, contributing to the department's sales targets and overall store performance.

Front End Web Developer, JM Associates (Contract)

04/2022 – 11/2022
Nairobi, Kenya

- Maintaining graphic standards and branding throughout the product's interfaces.
- Designing user-friendly software to improve accessibility and responsiveness.
- Creating scalable, highly available, and reliable software to withstand heavy user traffic.
- Reviewing proposed user interface and experience designs for technical feasibility by collaborating with the back-end development team.
- Improving coding of JavaScript and CSS to enhance user experience and functionality.

User Interface | User Experience Designer, Muse & Mural (Freelance)

02/2022 – Present
Nairobi, Kenya

- Designing interfaces, data handling procedures, and workflows throughout the application development lifecycle.
- Using standard code management tools such as Git and Agile software development methodologies to streamline the process.
- Developing system interaction or sequence diagrams.
- Using WordPress to design and update websites, landing pages, and other digital assets to support communication and marketing strategies.
- Identifying issues uncovered by testing or customer feedback and implementing solutions.
- Testing technical feasibility of user interaction and user experience designs to meet project goals.
- Analysing existing user interface features to identify improvement opportunities.

Full stack Web Developer, Muse & Mural (Freelance)

01/2022 – Present
Nairobi, Kenya

- Using coding skills to build prototype sites according to the designer's vision.
- Completing technical development and application tasks per approved project standards and allocated budgets.
- Creating sites and implementing special features to achieve functionality outlined in project designs.
- Collaborating with the design team to create attractive and user-friendly websites.
- Designing APIs to allow outside applications and sites to interact smoothly with websites.

Technical Support, Destiny Shapers CBO School (Volunteer)

07/2021 – 01/2022
Nairobi, Kenya

- Provided front-line technical assistance to users, offering guidance on software, hardware, and network-related issues to ensure seamless day-to-day operations.
- Collected and securely managed user account requests and access credentials, maintaining strict confidentiality and data integrity.
- Communicated IT policies, available support services, and system updates to users, enhancing user awareness and reducing repeated issues.
- Trained staff and volunteers in the proper use of audio-visual and IT equipment for presentations, meetings, and virtual sessions.
- Installed, configured, and optimized workstations and peripheral devices for peak performance and ease of use in various operating environments.

EDUCATION

- Diploma: Graphic Design, Kayole A.I.P.C.A** 11/2020 – 2021
Nairobi, KE
Focused on visual communication, branding, and digital design, with practical training in Adobe Creative Suite, layout design, and creative problem-solving for both print and digital media.
- Moringa Prep Introduction to Programming, Moringa School** 2021 – 11/2021
Nairobi, KE
Introduced to programming fundamentals with a focus on problem-solving using HTML, CSS, JavaScript, and Python, while building a strong foundation in logic, version control, and collaborative coding.
- Moringa Core Program in Web Development, Moringa School** 2021 – 02/2022
Nairobi, KE
Focused on full-stack web development, with hands-on experience in JavaScript, React, Angular, Python, Flask, and Django, as well as version control with Git, API integration, and collaborative agile methodologies.

SKILLS

Flexible

Able to successfully adapt to change when needed.

Time Conscious

Perform all duties assigned within the given schedule.

Ambitious

Able to stay ambitious and keep my work to its best with no fear of risks.

Problem Solver

Able to come up with quick and effective solutions.

Artistic Proficiency

Having a broad background in art gives me a creative edge in the design world hence ample quality assurance.

Team Builder

Led multiple concurrent projects through to completion.

Critical Thinker

Able to think rationally and thoughtfully to even come up with new and efficient ways of work.

Attention to Detail

Very keen perception of details to complete all tasks with absolute certainty.
